

Route Development Plan

What is WSDOT up to?

Asking for your help!

You are cordially invited to attend any of the four upcoming Listening Posts sponsored by the Washington State Department of Transportation (WSDOT). The WSDOT Planning Office is beginning a Route Development Plan (RDP) for SR 291 and Francis Avenue from Freya Street (east of Market) to Scotts Valley Road (west of Tum Tum). Route Development Plans are long-range planning studies on state highways and are intended to identify problem-areas and solutions. Solutions may include both short-term fixes (turn lanes, etc.) as well as the ultimate 20-year plan for SR 291.

Listening Posts are designed to provide one-to-one interaction between WSDOT and interested citizens. They do not typically involve presentations, as they are intended to facilitate the gathering of direct and candid input from the public. They are an excellent way to begin identifying our customers' most serious concerns and the areas of the highway generating the greatest concerns. As the planning process continues, traditional open house forums will then be used to present alternatives and receive feedback.

WSDOT planners and engineers will be on-hand at all of the Listening Posts to listen to your concerns, answer questions, and ensure that your input is considered in the development of our plans.

Listening Post Schedule

9-Mile Feed & Supply Store

Near 9-Mile Falls on SR 291

Thursday, August 19

4-7 PM

Safeway Grocery Store

Near Monroe on Francis Ave.

Tuesday, August 24

4-7 PM

Suncrest Outpost

Near Suncrest on SR 291

Thursday, August 26

4-7 PM

Fred Meyer Store

Near Addison on Francis

Friday, August 27

4-7 PM

Please select your top two choices for each question.

1. What are your primary purposes when traveling on SR 291/Francis?

- ☐ Work
 - ☐ Shopping
 - ☐ Other
 - ☐ School/childcare
 - ☐ Recreation

2. As you travel SR 291, what concerns you most?

- ☐ Sharp curves
- ☐ Delays/Travel-time
- ☐ Walking/biking safety
- ☐ Other
- ☐ Making safe turns
- ☐ Passing dangers
- ☐ Signal timing

3. What improvements would you most like to see made to SR 291?

- ☐ Turn lanes
 ☐ Passing lanes
☐ Signal timing adjusted
 ☐ Curve realignments
☐ Added through lanes
 ☐ Bike lanes
☐ Other

Other Comments:

Please provide address if you would like to receive future SR 291 Route Development Plan newsletters.

To help us better understand your concerns and priorities, please complete, detach, and mail in this questionnaire.
